

# ESTETIKA

The new Estetika enhances the art of espresso preparation at its finest. The dual boiler system allows both boilers to be heated at same time, ensuring them to reach optimal temperature as fast as possible.

## Dual Boiler 3CT System

The dual-boiler with triple temperature control enables precise temperature adjustments.

Two boilers allow independent brew and steam temperatures.

The cartridge-heated group head ensures superior thermal stability.

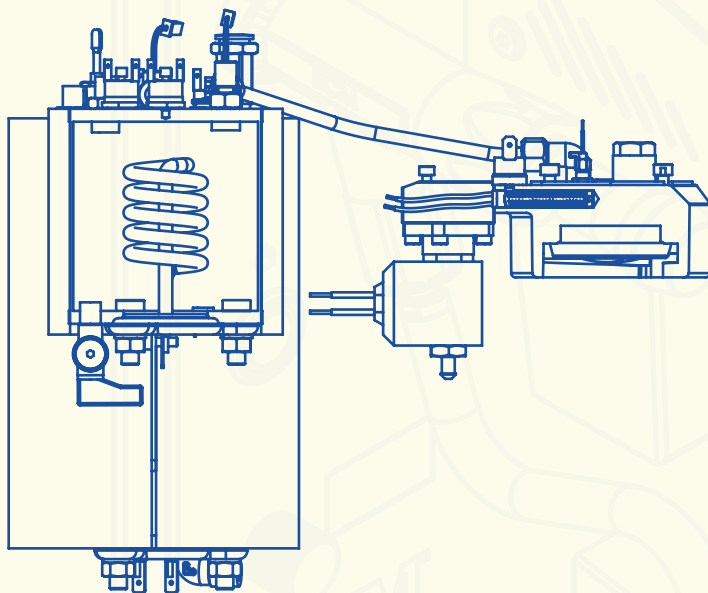

Precise temperature control enables adjustment within 1°C.

**OLED**

## OLED Control Display

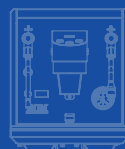

Programmable preinfusion, timers, and cleaning alerts, total control at a glance

## Fast Heat-Up Time

Ready to brew in just 6 minutes, thanks to the advance group head with cartridge heaters

**ECM**  
MANUFACTURE

# ESTETIKA

Brew group	Cartridge-heated group head
Pump type	Rotary
Fast heat-up mode	6 min
PID controller	3x PID
Shot counter	•
Timer function	•
Barista lights	•
Valves	Quick steam lever valves
Water tank	Approx. 2.8 l
Switchable water tank / fixed water connection	•
Automatic water shortage shut-off	•
Volume stainless steel boiler	Approx. 2 l steam & approx. 500ml coffee
Boiler pressure gauge	•
Pump pressure gauge	•
Number of ECM portafilters	1 + 1*
Weight	29.4 kg
Item number	CM100022-00 (matt black)

\* bottomless portafilter with two silicone attachments
